the ACT

# PROGRAM - THURSDAY 15 SEPTEMBER

## Net Zero Future in the ACT: Working Lunch with ACT Chief Minister and Policy Briefing

9:00am-10:00am **Site Visit 1 - Hydrogen Refueling Station, Fyshwick** (or Site 2)

Canberra is the first Australian city to pilot a publicly-available Hydrogen Refuelling Station (HRS). Located in Fyshwick, the pilot HRS opened in March 2021. The construction of the station and provision of vehicles are the result of a partnership between the ACT Government, ActewAGL and renewable energy developer Neoen. For more information, see [here](#).

Location: 27 Mildura Street, Fyshwick

10:00am-11:00am Groups switch sites.

11:00am-12:00pm **Site Visit 2 - Realising Electric Vehicle-to-grid Services (REVS) Program, ANU** (or Site 1)

The Realising Electric Vehicle-to-grid Services project, or REVS, will demonstrate the feasibility of EVs instantly discharging EV batteries when the national grid needs extra power.

Fifty ACT Government EVs and one ActewAGL EV will take part in the trial, which is the largest demonstration of vehicle-to-grid (V2G) services in Australia. The cross-sector project covers the whole electricity and transport supply chains and will create roadmaps and recommendations to deploy V2G technology at a national scale. For more information, see [here](#).

Location: ANU DERLab, Ground Floor, Engineering Building (G032), The Australian National University, Canberra, ACT 2600

12:00pm-12:30pm Travel to lunch.

12:30pm-2:00pm **Working Lunch and Policy Briefing**

Lunch and policy briefing with the ACT Chief Minister.

Venue: King & Wood Mallesons Office, Level 12, Constitution Place, 1 Constitution Ave, Canberra ACT 2601
